

## Attention Lakeview Water Customers,

We are experiencing a very low water year. Do to this we must put into effect some regulations for outdoor watering.

Effective immediately, we are placing into effect the following restrictions plan that will be rolled out in phases. We are still hoping we get some relief and can relax the restrictions. If the drought conditions continue to decline we will move to a more strict phase. Within the next few days or weeks we will have signage and flyers to help spread this information. Please feel free to spread this letter/information if you would like. Fines or penalties are being discussed now but we are hoping everyone will comply and do everthing possible to conserve. Please submit questions via our contact link on our webpage ([www.lakeviewwatercorp.com](http://www.lakeviewwatercorp.com)) and be patient. We will be answering as fast as possible. Also please enroll at the “sign up for alerts” tab to receive alerts via email, text or both.

### Phase 1.

All outdoor watering is restricted to 6-8 AM and 6-8 PM only.

### Phase 2.

All outdoor watering is restricted to 6-8 AM and 6-8 PM ALTERNATING DAYS. (Even house #s will water on Even days, Odd house #s Odd days).

### Phase 3.

No auto sprinkling systems. Hand/Hose watering only. Watering times/days will continue as outlined in Phase 2.

### Phase 4.

No outdoor watering.

**We are starting out in Phase #2 now as the conditions stand.**

\*In addtion to the above phases please note installation of hydroseed, sod, plantings ect will need to be held off until conditions improve.\*

Thank you for your cooperation and again please conserve to keep drinking, bathing, cooking and fire protection water available.
